

Piper Inns Hall

COMPUTER SCIENCE STUDENT · SOFTWARE ENGINEER · DEVELOPER

Hataitai, Wellington (Relocatable)

 12/05/2006  +64 20 4136 9156  piper.innshall@gmail.com  piperinnshall.com  piperinnshall  Piper Inns Hall

Profile

Second-year Computer Science student passionate about systems, tooling, and automation. Experienced with Java, Lua, C, and more. I build open-source tools, and enjoy solving real-world problems through code.

Education

Victoria University of Wellington

Wellington, NZ

B.S. IN COMPUTER SCIENCE

Feb 2024 - Present

- Focus on systems programming, computer graphics, and software engineering
- Active participant in university computing community

Harvard University

Online

CS50X INTRODUCTION TO COMPUTER SCIENCE

Dec 2023

- Valid Certificate ID: 100aa7725c234c51b6c3dd29090b6f3e
- Comprehensive introduction to computer science and programming

Experience

Computer Graphics Tutor

Wellington, NZ

VICTORIA UNIVERSITY OF WELLINGTON

Apr 2025 - Present

- Helped students understand complex computer graphics topics and improve their problem-solving skills
- Communicated clearly and worked patiently to support different learning styles

Lead Software Engineer | GitHub Specialist | CSIRT Member

Wellington, NZ

PROJECT KORORA - OPEN SOURCE CUBE SAT INITIATIVE

Apr 2025 - Present

- Established the Git repository and CI/CD pipeline, automating testing and deployment with GitHub Actions and Anaconda
- Implemented coding standards and pre-commit hooks to ensure consistent code quality and streamline the development workflow
- Developed key project documentation and infrastructure to guide development and collaboration among contributors
- Contributing to systems code for a student-led CubeSat initiative advancing New Zealand's space economy

Elder Care Worker

Wellington, NZ

PRIVATE CARE

Dec 2023 - Present

- Provide personal care and companionship for a wheelchair user in her home
- Manage daily activities including meal preparation and mobility assistance

Projects

processing.nvim – Processing Language Plugin for Neovim

github.com/piperinnshall/processing.nvim

LUA, NEOVIM, LSP, Nix

2024 - Present

- Developed a comprehensive Neovim plugin for compiling and running Processing sketches
- Added support for LSP integration, comment formatting, and ctags-based navigation
- Includes complete test suite using busted, CI workflows, and Nix-based development environment
- Published as open-source package with extensive documentation and configuration options

boot.nvim – Neovim Boot Screen Plugin

github.com/piperinnshall/boot.nvim

LUA, NEOVIM

2024 - Present

- Created a lightweight, customizable boot screen plugin for Neovim with minimal overhead
- Implemented modular theme system with full customization support
- Focused on performance and simplicity while enhancing user experience
- Features easy installation and configuration with multiple package manager support

Game Jam Submissions

GODOT, GDSCRIPT, SWING, JAVA

- Collaborated on several 2D game jam projects including WLGG World Day and pp-jam-25
- Managed coordinated development through shared GitHub repositories
- Developed classic games in Java Swing: Chess, Battleships, Minesweeper, and Snake
- Applied game development principles and collaborative programming practices

github.com/piperinnshall

2023 - Present

Conway-Project – Game of Life Implementation

KOTLIN

- Implemented Conway's Game of Life in highly optimized Kotlin code
- Created compact, functional solution in just 8 lines with full grid simulation
- Demonstrates advanced functional programming and algorithmic optimization skills

github.com/piperinnshall

2024

piperinnshall.com – Personal Portfolio Website

ASTRO, NETLIFY, HTML/CSS

- Built a performant personal website AstroJS, Deployed via Netlify
- Showcases projects, skills, and professional experience with modern web technologies

piperinnshall.com

2024 - Present

Technical Skills

Programming Languages Java, Lua, C/C++, Python, Kotlin, JavaScript, HTML/CSS, GDScript

Tools Git/GitHub, Linux, Neovim, NixOS/Nix, SQL (SQLite), Godot, Astro, Netlify

Specializations Systems Programming, Plugin Development, Computer Graphics, Game Development, Web Development, CI/CD, Open Source

Achievements & Recognition

NZ Cyber Security Challenge

HIGH SCHOOL CATEGORY - 4TH PLACE

- Achieved consistent top performance in national cybersecurity competition
- Demonstrated skills in system analysis, vulnerability assessment, and security protocols

New Zealand

2022 & 2023

NZ Basketball Academy Annual Las Vegas Tour

SELECTED REPRESENTATIVE

- Chosen to represent New Zealand in elite U.S. tournaments hosted by the NZ Basketball Academy
- Demonstrated leadership and teamwork skills in international competitive environment

Las Vegas, USA

2023

Festival For the Future Scholarship

LEADERSHIP SUMMIT SCHOLARSHIP RECIPIENT

- Received scholarship to Aotearoa's biggest leadership summit
- Recognized for leadership potential and community engagement

New Zealand

2023

Volunteering & Community

Relay For Life

VOLUNTEER & FUNDRAISER

- Raised funds and participated in community events supporting cancer research and patient care
- Contributed to community health initiatives and awareness campaigns

Wellington, NZ

2021 & 2023

Sky Stadium Cleanup

COMMUNITY VOLUNTEER

- Assisted in post-event cleanup as part of a community fundraising initiative
- Demonstrated commitment to environmental stewardship and community service

Wellington, NZ

2020

Christchurch Hacking Conference

CONFERENCE ATTENDEE

- Engaged with cybersecurity community and expanded technical knowledge
- Networked with industry professionals and stayed current with security trends

Christchurch, NZ

2023
